

MOHAMED NAGY

Software Engineer | Front-End / React / Full-Stack Developer

New York, NY • (347) 977-5283 • contactmonagy@gmail.com

Portfolio: monagy.com | GitHub: github.com/devmonagy | LinkedIn: linkedin.com/in/devmonagy

PROFESSIONAL SUMMARY

Web Developer with 7+ years of experience specializing in front-end engineering while also contributing to back-end development. Skilled in building scalable, component-driven applications using React, Next.js, and TypeScript, with hands-on experience in Node.js and RESTful APIs. Strong focus on responsive UI design, accessibility (WCAG 2.2), state management, and performance optimization within Agile SDLC environments.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, Redux, Tailwind CSS, Vite, Webpack.

UI & State Management: React Hooks, Component Architecture, Responsive Design, Cross-Browser Compatible, Material UI

Back-End: Node.js, Express.js, PHP, REST APIs

Databases: SQL Server, MongoDB

Cloud & DevOps: Azure, Vercel, Render, Git, GitHub Actions, CI/CD, Microsoft Fabric.

Practices: Agile/Scrum, SDLC, Accessibility (WCAG/ARIA), SEO Optimization, Testing (Jest, React Testing Library)

PROFESSIONAL EXPERIENCE

ADAPT Community Network — Software Developer | Mar 2025 – Present

- Develop internal organization Power Apps solutions, improving business process efficiency by ~25%.
- Build reusable component libraries and custom functions, accelerating internal app development by ~30%.
- Integrate Dataverse, REST APIs, and Azure services to enable secure internal data exchange by ~35%.
- Optimize low-code expressions, collections, and backend queries, reducing manual processing time by ~40%.
- Lead Agile sprints to deliver feature-rich application updates, improving team delivery predictability by ~20%.

ADAPT Community Network — Web Developer | Aug 2021 – Mar 2025

- Built responsive SEO-optimized web applications using JavaScript, PHP, WordPress, and REST APIs, improving page load speeds by ~20–30%.
- Developed reusable React components and internal dashboards, reducing manual workflows by ~25%.
- Implemented caching, asset optimization, and code refactoring, decreasing load times by ~30–40%.
- Ensured WCAG 2.2 accessibility and cross-browser compatibility, reducing UI issues by ~20%.

WebDefinitely — Founder & Freelance Web Developer | Jan 2018 – Present

- Delivered full-stack solutions with JS/React/Node/PHP, improving delivery speed by ~25%.
- Built reusable UI components, cutting dev time by ~30%.
- Handled hosting, DNS, and deployments, reducing launch issues by ~40%.
- Led projects end-to-end, increasing on-time delivery and client satisfaction by ~20%.

PROJECTS

Blogwebapp (React, Node.js, MongoDB) — blogwebapp.monagy.com | github.com/devmonagy/blogwebappdev

Built a Medium-style blogging platform with authentication, protected content, and REST API integration using React and Node.js.

EDUCATION

Bachelor of Science in Computer Systems Technology

New York City College of Technology
